OBJECTIVE

I'm an enthusiastic learner ready to tackle new challenges. I thrive on creativity and adaptability, and I'm eager to dive into exciting projects. I am curious student excited about exploring new ideas and opportunities.

EDUCATION

Bachelor of Technology (B.Tech) – Data Science in Sasi Institute of Technology and Engineering, JNTUK, with CGPA 79% in the year 2022 – 2026.

MPC Higher Secondary Education studied in Sri Lakshmi Ganapathi Junior College, Vizianagaram, with 80% in the year 2020–2022.

Secondary Education completed at ZPHS High School, Sivaram, with a of 98% in the academic year 2019–2020.

SKILLS

Programming Languages: Python, C

Web Development: HTML, CSS

Database: SQL, Basics of mongodb

Tools & Technologies: Git, VScode, Jupyter Notebook

Concepts: Machine Learning Basics, Deep Learning Basics

Soft Skills: Communication, Problem Solving, Teamwork

INTERSHIPS

SkillDzire Technologies

April 2024 – July 2024

Successfully completed a short-term internship program titled *Machine Learning* under SkillDzire for 2 months. The internship was organized by SkillDzire in collaboration with the Andhra Pradesh State Council of Higher Education. Gained hands-on experience applying machine learning techniques to real-world problems.

India Educates (EduSkills + AICTE)

April 2024 – June 2024

Completed a virtual internship in *Android Development*, designed to help aspiring developers build practical skills. The internship was conducted in collaboration with EduSkills and AICTE, with additional involvement from Google on Android-related projects.

Data Science with AI at Nyeras Edu-Tech and Innovations Pvt. Ltd. (Remote)

May 2025 – June 2025

During this internship, I gained practical experience in applying data science and artificial intelligence techniques to solve real-world problems. My work included data preprocessing, exploratory data analysis, machine learning model development, and AI integration for decision-making systems.

PROJECTS

Portfolio Website Created a personal portfolio website showcasing academic achievements, skills, and projects using HTML, CSS, and basic JavaScript.

Fruit Classification Using ResNet (Deep Learning): Developed a Deep Learning-based Fruit Classification System using ResNet50 with transfer learning to accurately identify different fruit types from images. Implemented data preprocessing, augmentation, and model evaluation using TensorFlow and Keras.

Developed a Movie Recommendation System using Python that suggests movies based on user preferences through collaborative and content-based filtering, leveraging pandas, NumPy, and scikit-learn for data processing and model building.

AI-Based Public Infrastructure Complaint Analysis and Monitoring Dashboard System: Developed an AI-driven complaint analysis system using **YOLOv8** for infrastructure issue detection and **Mistral-7B** for automated complaint description generation, with a dashboard for complaint monitoring and hotspot visualization.

CERTIFICATIONS

- Android Developer Virtual Internship – EduSkills AICTE (2024)
- Machine Learning – SkillDzire APSCE (2024)
- Cloud Virtual Internship – AWS Academy (2024)

- Python for DataScience – NPTEL(2025)
- Data Science Intern – Nyeras Edutech and Innovation Pvt Limited
- Machine Learning&Deep Learning – Huebits Tech Pvt.Lt(2026)
